The problem: heterogeneous backups

The *heterogeneous nightmare*

Sun
file server
NetWorker

NetWare
file server
ArcServe

Auspex
file server
BudTool

Windows NT
file server
Arcada

Pyramid
database server
Alexandra

intelliguard
SOFTWARE

NDMP: Futures

- Archive extensions

- HSM extensions

- Smart peripheral support

- SAN support

intelliguard
SOFTWARE

Features

- Allows software providers to share each others agent
- Allows vendors to focus on core competency
- Allows great flexibility in backup configuration
- Allows software vendors to solve heterogen problem jointly rather than individually

intelliguard
SOFTWARE

What you need to know

- NDMP is good for customers and for storage, file system, library and backup vendors
- Cooperative open standard initiative
- It's Here, it's Now, it's **FREE**!!!
