

**SAVE THE DATE: APRIL 7-10, 2003 IN
SAN DIEGO**

StorageConference.Org/2003

20TH IEEE SYMPOSIUM ON MASS STORAGE SYSTEMS

in cooperation with

**11TH NASA GODDARD CONFERENCE
MASS STORAGE SYSTEMS AND TECHNOLOGIES**

Global Access to Distributed Storage

A forum for discussions related to storage systems, covering issues regarding media, hardware, and software. Large data volumes are emphasized with a focus on assuring timely delivery of information.

The Symposium will include:

TUTORIALS on the first day

VENDOR EXPO throughout featuring products and capabilities

TECHNICAL SESSIONS with topics including, but not limited to:

- Ø **Extremely-Distributed, Heterogeneous Storage Systems**
- Ø **Emerging Technologies Within Storage and Within Other IT Areas Affecting Storage Systems**
- Ø **Security, Reliability, and Performance (Can You Have All Three?)**
- Ø **Storage System Technology & Critical Infrastructure Protection**
- Ø **Object Based Storage, SAN Fabrics**
- Ø **Data Management, File Systems**
- Ø **Digital Libraries, Persistent Archives**
- Ø **Emerging Standards**

Additional information will be sent to Conference Attendees in future mailings.
