Oracle's Storage Strategy

Lead the
Open Storage
Revolution!

Radically simplifying the way
you manage your storage,
with breakthrough cost,
performance and scale.

Keep our **#1** market position
in **Tape** by focusing on
technology innovation,
product reliability/availability
and quality service delivery

Continue to Deliver a
Best-in-Class traditional
Storage Portfolio

Continue our **strong growth**
in the **Disk Array** market by
differentiating in software,
services, and system design
and packaging

Key Product Announcement – Last 2 years

- IBM LTO4 Encryption – October 2009
- IAS 1.1 – October 2009
- ACSL5 8.0 – October 2009
- IBM LTO4 Dual Port – July 2009
- T10000 FIPS Certification – July 2009
- SL3000 Enhancements – May 2009
- SLC Enhancements – May 2009
- VSM Enhancements – April 2009
- ELS 7.0 – April 2009
- KMS 2.1 – March 2009
- T10000B FICON – September 2008
- VTL Prime – September 2008
- T10000B FC – July 2008
- SL500 Capacity on Demand – July 2008
- T9840D FC – June 2008
- HP LTO Encryption – May 2008
- T9840D FICON – February 2008
- KMS 2.0 – March 2008
- VTL Plus 2.0 – January 2008
- SL8500 – Multi-TCP/IP – January 2008

Cartridge Slots

Oracle Tape Automation

Reduce costs with the SL3000 and SL8500

- Designed for tape consolidation
 - Any Cartridge Any Slot mixed media technology ☉
 - Open systems and mainframe connectivity
 - SL3000 dynamically manages partitions and supports non-contiguous resource assignment
- Highly efficient designs reduce power and floor space costs
 - SL8500 is 25% more efficient and 25-50% smaller than PowderHorn ☉
 - SL3000 is 50% more efficient and 60% smaller than other solutions ☉

☉ Oracle Differentiator

Oracle Tape Encryption

Simple, Secure, Networked, Automated

 Oracle Differentiator

- Oracle's Sun StorageTek Crypto-Key Management System
 - A simple, secure and scalable solution with a single crypto key management station 
 - T10000A and T10000B
 - T9840D
 - LTO4 from HP and IBM
- WORM technology
 - T9840 and T10000 VolSafe

7000 Systems

Introducing the Sun Storage 7000 System...

Radically **SIMPLIFYING** the
way you manage your
storage with breakthrough
SPEED, SCALE and COST
SAVINGS

Speeding Up, Simplifying, and Cutting Costs for Thousands

- Shipped more than 54PB of storage to date
- Achieving broad market adoption across multiple industries
- One of the fastest ramping Storage products ever from Sun

Sun Storage 7000 Systems

7110

ENTRY-LEVEL STANDALONE

8 GB memory • 14 300GB SAS disks

7210

HIGH-DENSITY SCALABLE

Up to 64GB memory, 142 1TB SATA disks

Up to 2 18 GB write-optimized SSDs

7310

ENTRY-LEVEL CLUSTER-CAPABLE

Up to 64GB memory, 96 1TB SATA disks

Up to 6 100GB read/16 18GB write SSDs

Active-Active Clustering for H/A

7410

STANDARD FEATURES (ALL MODELS)

All Data Protocols and Data Services Included

(Analytics, Snapshots, Replication, Compression, NFS, CIFS, iSCSI...)

Built-in 4 1 Gb Ethernet ports

Remote Console (Serial or Ethernet)

Lights-out Management

SCALABLE CLUSTER-CAPABLE

Up to 256GB memory, 288 1TB SATA disks

Up to 6 100GB read/16 18GB write SSDs

Active-Active Clustering for H/A

Full Complement of Storage Software

Included with the System at No Additional Cost

Data Protocols

- NFS v2, v3 and v4
- CIFS
- iSCSI
- HTTP
- WebDAV
- FTP/SFTP/FTPS
- NDMP v3/v4

Data Services

- Flash Hybrid Storage Pool
- RAID-Z (5)
- RAID-Z DP (6)
- Mirroring
- Striping
- Active-active Clustering
- Remote Replication
- Antivirus via ICAP Protocol
- Snapshots
- Clones
- Compression
- Thin Provisioning
- End-to-End Data Integrity
- Multi-Path I/O
- Fault Management
- Microsoft VSS/Shared Folders

Management

- DTrace Analytics
- Dashboard
- Role-Based Access Control
- NIS LDAP & AD Alerts
- Phone Home
- SNMP
- Scripting
- Upgrade
- Hardware View
- Advanced Networking
- Workflow Automation

Providing Unprecedented Storage Analytics

- Automatic real-time visualization of application and storage related workloads
- Simple yet sophisticated instrumentation provides real-time comprehensive analysis
- Supports multiple simultaneous application and workload analysis in real-time
- Analysis can be saved, exported and replayed for further analysis
- Built on DTrace instrumentation
 - NFSv3, NFSv4, CIFS, iSCSI, NFS over RDMA (Infiniband)
 - ZFS and the Solaris I/O path
 - CPU and Memory Utilization
 - Networking (TCP, UDP, IP)

Instant Visibility into Key Questions

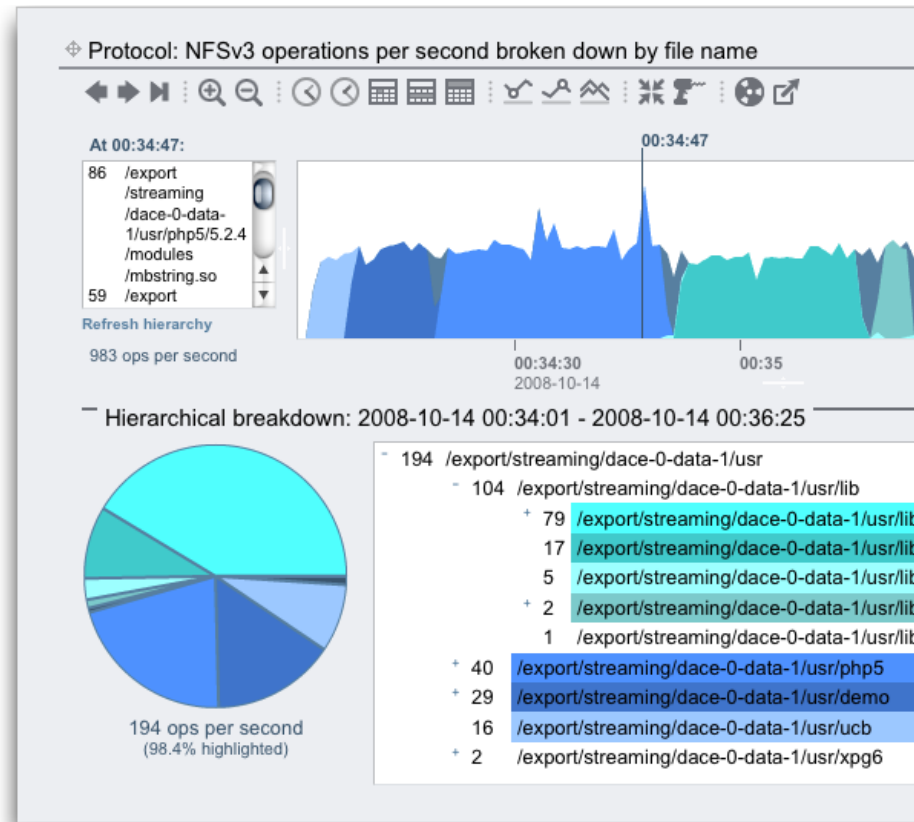

“What is CPU and Memory Utilization?”

“How much storage is being utilized?”

“How is disk performing? How many Ops/Sec?”

“What Services are active?”

“Which applications/users are causing performance issues?”

Hybrid Storage Pool Benefits

100 Enterprise HDDs

Capacity: 30TB
Performance: 30K IOPS
Power: 1,750W

Hybrid Storage Pool

1/3 the cost!

Capacity: 30TB
Performance: 40K IOPS
Power: 392W

Breakthrough Storage Economics

- Gain up to 75% cost savings
- No additional software license fees
- 3x less power consumed
- Reduce break/fix calls and enjoy a Single Point of Contact (SPOC) with Oracle Services
