Object Storage

Delivering the value proposition

Hal Woods VP, Chief Systems Architect, Elastic Storage Platforms   (Hal.Woods@HGST.com)

Q: Why Object Storage?

A: Simplicity @ Scale

- Petabytes to Exabytes
- Power, Ethernet, PUT, GET
- Just Works
- Durable, Consistent, Available
- Software Defined – Yes... No

Q: When will Object Storage make a difference in Enterprises?

A: As Enterprises shift from cost to monetizing object storage

- Affordably store all useful data
- Any data in milliseconds
- Put the data to work
